INTRODUCTION

After 4 years in various commercial roles being exposed to working with tech teams, I have decided to change my career path and become a web developer.

I successfully completed a 9-week intense coding bootcamp at Le Wagon and I am looking forward to continue learning about new technologies, languages and frameworks.

TECHNICAL SKILLS

- Ruby on Rails
- APIs, JSON, scraping
- Relational databases, SQL, PostgreSQL
- HTML, CSS, Bootstrap
- ES6 Javascript
- Wireframes, prototyping, UI design
- Test driven development
- Git, Github, technical workflow

LANGUAGES

- German (native)
- English (fluent, IELTS 7.5)

PROJECTS

Designed, implemented and shipped to production:

- **Travelizer** (ongoing) - Web app that allows users to create travel itineraries and share these with the travel community.

- **Recyclable -** As a team of four within two weeks we built a web app that helps consumers to identify whether a specific piece of packaging can be recycled. It also offers alternative product suggestions to help users make better purchasing decisions in the future.

- **Rento -** Web app enabling users to rent and rent out a variety of items in their neighbourhood.

Built using Ruby on Rails, Javascript, jQuery, AJAX, HTML, CSS, Bootstrap, ActiveRecord, APIs, Github and Heroku.
